

Golf Car Batteries

The maintenance of golf cart has been just like maintaining own car with the same responsibility. You may sometimes experience the replacement of wearable elements such as tires, belts, and batteries. The range of a battery for a golf car is not easy as there are many batteries available on a platform for .

Maintenance of Batteries

You should make a proper schedule for regular inspection of your batteries. It can enable you to detect the issues and correct them before bigger issues arises. The clamps of batteries are important to check for the fraying and corrosion. These issues can prevent the power to reach the motor of a golf car.

If you find corrosion in your batteries, you can remove the residues with a solution of baking soda and water. You should remember to take precautionary measures to prevent your skin and eyes from the golf car batteries. Completely recharged batteries are required to attach with the golf cars to prevent the irreparable issues.
